

Unique Ability Consulting

The Future Is In Our Hands

Unique Ability Consulting has been started to help children with Learning Difficulties. We believe that all children have a Unique Ability. Our purpose as a company is to help children find their Unique Ability.

Areas we cover :

- Dyslexia • Dyscalculia • Assistive Technology • Living with Dyslexia • Knowledge sharing for Teachers, Parents and Children

To meet our objectives we have teamed up with Claro Software who share our dream.

Claro Software develops Assistive Technology, software for people with disabilities such as print and reading difficulties like dyslexia. They are experts in speech synthesis, word prediction, spellchecking and switch access, and combine them to make innovative, easy-to-use products on Microsoft Windows, Apple Mac OSX, Android, iPad and iPhone, and on the Web.

Unique Ability Consulting will support the users and sell the software in India.

Campaign mottos :

Learning **Ability**
is better than
learning disability

Every child has a **Unique Ability**,
if you have not found it yet,
look for it,
it will be there.....

With the help of ClaroRead and our other supporters our endeavor is to help as many children as possible in India who have Learning Difficulties.

We are excited to share this platform with ClaroRead and help to be a part of Digital India.

Get in touch with us and lets change lives together...
